Line and Space, LLC Architects

Structures such as the Meinel Optical Sciences Building and Stevie Eller Dance Theatre have brought bold modernity to The University of Arizona campus in recent years. In 2007, the lower-profile but equally progressive Helen Schaeffer Poetry Center joined the list with its harmonious horizontal and vertical planes intersecting walls that lean both in and out, simultaneously sheltering and inviting access to one of the country's most distinguished collections of verse. *Helen Schaeffer Poetry Center, 1508 E.
